

Asociación Iberoamericana de Entidades Reguladoras de la Energía, ARIAE
Agência Nacional do Petróleo, Gás Natural e Biocombustíveis, ANP

WORKSHOP ON ENERGY DATABASES

17 - 18th June, 2015

Day 1

08:30 Registrations

09:00 Welcome and Introduction
Workshop Scope and Agenda

09:30 Brazilian Experience on Energy Databases

- Presentations of EPE, ANEEL and ANP
- Presentations of Petrobras and Eletrobras
- Considerations from the Ministry of Mines and Energy

11:00 Coffee Break

11:30 The Inter-American Development Bank (IDB) Energy Database

- The IDB Energy Division
- Energy Dossiers and Evolution of Data Needs
- The Tool
- The importance of this new way to understand the energy data: energy planning, policies decision making

13:00 Lunch

14:30 The Multilateral and Regional Levels

Multilateral Perspective:

- International Energy Agency – IEA

Regional Perspective:

- OLADE
- CEPAL

16:30 Coffee Break

17:00 – 18:00 General Discussions of topics presented in the day

Day 2

09:00 Regional Perspectives

- Experience of European Union with Mrs. Esther Espeja (CNMC of Spain)
- Experience of North America: National Energy Board - Canada

11:00 Coffee Break

11:30 National Perspectives

After the former presentations, we will have a moderator and let the conversation flow freely between experts. People are invited to comment and to add to the discussion. We expect all the countries to share their experiences and points of view about the challenges and opportunities on collecting and processing energy data, as well as using them in order to formulate policies and taking decisions.

- Mexico and Chile
- Dominican Republic and Panama
- Costa Rica and Guatemala

13:00 Lunch

14:30 Conclusions and Final Discussions: Questions to be addressed

- Steps ahead
- Collecting data and financing barriers
- National Energy Statistical Needs
- Quality and transparency
- Support of information technology

17:00 Coffee Break

17:30 – 18:00 Closing Remarks and Farewell
